Getting Started with Skin Tight

While appointments are not always required, our services are best enjoyed when planned ahead. You should plan on arriving 10 minutes before your treatment to ensure your services are customized, designed, and delivered to treat your skin with maximum results. Evenings and weekends book up quickly and cancellations are discouraged.

Partnered with:
Kevin Robertson, MD, FACS
Board Certified Plastic Facial Surgeon

Skin Tight's mission is to make your skin look the best and for you to feel good about your skin. Our primary goal is to improve the health of your skin using professional-grade products and treatments not found anywhere but in licensed skin care establishments.

Free Skin Analysis

Not sure what type of skin you have or what type of treatment would be best for you?

Call for a FREE Skin Analysis!

We'll show you what areas of your skin need help. Then, we'll discuss a plan for addressing your needs. It's then up to you whether you want to spot treat those areas or follow a plan that will leave you and your skin looking great for years to come. Either way, it's FREE!

So call 262-628-3727 today.

Facials:

All facials are customized based upon your skin type and what skin problem you would like treated. We use pharmaceutical-grade products to refresh and revive your skin, all while you relax with hot steam and hot towels, for a calming experience to rejuvenate your appearance with no down-time.

Laser Hair Removal:

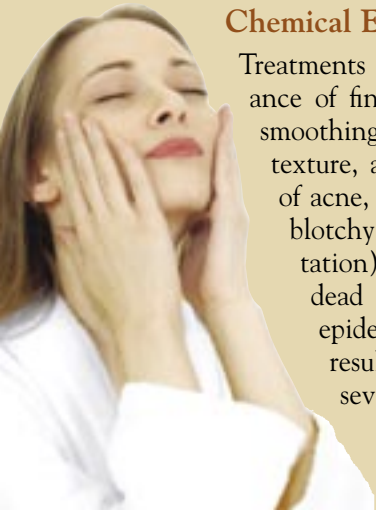

Tired of shaving or embarrassed by unsightly facial or body hair? Skin Tight's Laser Hair Removal treatments may be just the answer. Using the latest ProWave IPL technology, Skin Tight's nationally certified laser technician will target your unwanted hair in the safety and comfort of our state-of-the-art facility. Call today for a free consultation and quote.

Laser Rejuvenation:

The appearance of Age Spots, Rosacea, Uneven Skin Tone and Telangiectasia can be markedly improved with our Cutera LimeLight IPL. A free consultation with our Licensed Esthetician will help you understand how Laser Rejuvenation can work for you.

Chemical Exfoliation (Peels):

Treatments minimize the appearance of fine lines and wrinkles, smoothing out rough skin texture, aiding in the clearing of acne, and fading uneven or blotchy skin (hyper-pigmentation). The acids remove dead skin cells from the epidermis with optimal results often requiring several treatments.

Microdermabrasion - Crystal Free:

Crystal-Free Microdermabrasion also removes the dead skin cells of the epidermis without chemicals by using a diamond-tipped, professional-grade vacuuming wand to leave your skin smooth and promote healthy new skin cells. Little or no down-time lets you look your best right now.

Botox®, Restylane®, Radiesse™ & Juvederm Injectables:

Many of our clients seek rapid results using today's most advanced, non-surgical procedures to smooth out frown lines between eyebrows, creases in their forehead, or crow's feet around the sides of their eyes. They also seek long-lasting help with age-defying treatments to treat deeply etched wrinkles and furrows.

Our FREE consultation will help you decide which injectable treatment is best for you and the results you are seeking. And whether it involves Botox®, Restylane®, Radiesse™, and/or Juvederm, our medical director, Dr. Kevin Robertson, MD, FACS, Board Certified Plastic Facial Surgeon, administers all the injectables for our clients. Our injectable services are individually tailored, professionally administered, and monitored at prices below most physician's offices.

Treatments must be scheduled in advance and a FREE consultation is required prior to administration of any injectables. Please note that cancellation fees are applied if notice of cancellation is not given at least 24 hours prior to service.

Skin Tag Removal:

Using the Vascular 300's Direct Current and High Frequency Current, we safely remove unsightly skin tags with very little discomfort at affordable prices. Many skin tags will simply scab up and fall off in a few days. Larger skin tags may require several treatments. Many clients experiencing multiple skin tags on their face and neck areas treat these areas first before moving on to other areas of the body.

Professional Strength Products:

Professional-Grade skin care products cannot be purchased in the department store, skin care parties, or through television. Our line of home-care skin products are professional strength and matched to your skin type, needs, and expectations. Because our products are professional grade, you will use them to the last drop eliminating the money you waste chasing beauty in discount-priced bottles. And because we'll design your home-care skin regimen, you'll save time too knowing exactly what to use, when to use it and how much to use (a little goes a long way with our products).

GloMinerals Cosmetics:

GloMinerals' products are consistently ranked by beauty magazines and celebrity makeup artists among the highest quality products available. See for yourself how easy it is to look your best using less product when it's GloMinerals.

Hair Care:

Whether you're looking for a new hairstyle, a new color or highlight, or just looking to build a new relationship with a Cosmetologist who might be more convenient for you, the stylists at Skin Tight Medi-Spa & Salons have extensive experience in the hair industry and welcome the opportunity to showcase their talents to make you look your best. Specializing in both men's and women's hair, we welcome walk-ins but do encourage appointments to accommodate today's busy schedules.

Nail Care:

We can handle anything from the "quick fill" to the luxurious pedi-spa treatment with massage. Full nail care services are offered by appointment to complete your total look.
